**Great Reasons Us Will Unite Peace**

----- All of us are quite aware of, and deeply worried by, the disturbing social and political situation of the world today. Our world is increasingly a place of violent conflict, hatred and brutal atrocities, committed even in the name of God and of religion. We know that no religion is immune from forms of individual delusion or ideological extremism. This means that we must be especially attentive to every type of fundamentalism, whether religious or of any other kind. A delicate balance is required to combat violence perpetrated in the name of a religion, an ideology or an economic system, while also safeguarding religious freedom, intellectual freedom and individual freedoms. But there is another temptation which we must especially guard against: the simplistic reductionism which sees only good or evil, or, if you will, the righteous and sinners. The contemporary world, with its open wounds which affect so many of our brothers and sisters, demands that we confront every form of polarization which would divide it into these two camps. We know that in the attempt to be freed of the enemy without, we can be tempted to feed the enemy within. To initiate the hatred and violence of tyrants and murderers is the best way to take their place. That is something which you, as a people, reject. Our response must instead be one of hope and healing, of peace and justice. We are asked to summon the courage and the intelligence to resolve today's many geopolitical and economic crises. Even in the developed world, the effects of unjust structures and actions are all too apparent. Our efforts must aim at restoring hope, righting wrongs, maintaining commitments, and thus promoting the well-being of individuals and of peoples. We must move forward together, as one, in a renewed spirit of fraternity and solidarity, cooperating generously for the common good. The challenges facing us today call for a renewal of that spirit of cooperation, which has accomplished so much good throughout the history of the United States. The complexity, the gravity and the urgency of these challenges demand that we pool our resources and talents, and resolve to support one another, with respect for our differences and our convictions of conscience. **Pope Francis : US Congress : Sept 2015**

#WordsToLiveBy : <http://community.gruwup.net/20/> : <http://community.gruwup.net/21/> : @Gruwup 2019

As Doctor Jonathan Harry Mermin has the governmental agency responsibility as being the Top Director in leadership and administration of the HIV Prevention and Treatment Segment of the CDC Center For Disease Control in Atlanta Georgia, there are certain responsibilities that come with holding this governmental role of this agency.

As there is an obvious hate bias embedded conspiracy in supportive functions of social service providers and infecting into doctor provider care. The evidence of this exposed conspiracy is found by taking to account the negative outlook employee reviews of the Ryan White Care Act agencies region to region that are reported by the professional's web networking site of Glassdoor. There are commonly themed reviews crossing over mere individual local examples that are found to be [1] toxic and distrustful work environments, [2] distant CEO and BOARD involvements to the operations of client services, [3] unwarranted barriers against change reporting retaliation for those who attempt such changes, [4] Advise to both new prospective employees considering employment as well as advise to new clients to stay away from the agency, and [5] How the above 4 business operation culture negatively impacts client services to the affect of injury to clients.

As such as these have common themes across many reported region to region agencies, as a collective dataset makes the persuasive deductive reasoning conclusion that the problem that generates this is top down above system setup hierarchy that is administered by the HHS [ Health and Human Resources ] and the HIV segment of the CDC.

James Martin Driskill • an hour ago

So you can conduct an agency by agency search of current records, or link to this collective research directory findings and read the samplings that have been taken directly and copied from Glassdoor.com:

Data Directory Access:

<http://webdomains.realuphum...>

The underlying cause of why these hate disturbances are present, is because clients have been divided into classifications by the leaderships of these agencies as being clients so called dangerous among the community as "the dirty" or the "sinners" that Pope Francis is calling for us to stop dividing our society and communities. Further, Pope Francis is calling in his address to the nation of the United States before Congress in September of 2015, as: "demands that we confront every form of polarization which would divide it into these two camps. [ the righteous and sinners ]. Therefore, if demand and confront is the term used here, confronting the rationalization of the truth is what these postings to NPI doctor DATA records are purposed for.

As Mark Twain said:

### The 9 Scourges of Inequality and the 12 Steps of Social Improvement to Rebuild Trust In Our Communities: [http://www.democracynetworkantiochcapitalist\\_misery\\_economy\\_meets\\_psychology](http://www.democracynetworkantiochcapitalist_misery_economy_meets_psychology)

1. We understand that one person alone cannot solve the chronic societal and personal problems that are making our lives very difficult to manage.
2. We have come to believe that only a collective, which is a power greater than our individual selves, can move us and our nation forward to a healthier, more democratic place.
3. We decided to commit time and energy, will and belief in the future to work together for change.

### The 9 Scourges of Inequality and the 12 Steps of Social Improvement to Rebuild Trust In Our Communities: [http://www.democracynetworkantiochcapitalist\\_misery\\_economy\\_meets\\_psychology](http://www.democracynetworkantiochcapitalist_misery_economy_meets_psychology)

4. We took a serious and thorough moral measure of ourselves, noting the ways we collude with societal forces in our own exploitation, and noting our embrace of practices and beliefs about ourselves and others that make us vulnerable to being manipulated and exploited. This is an important step. We need

**to be aware that we are not just victims or victimizers, we are also collaborators. We are not helpless. We can also act...-for better or for worse. What we need to do now is unite around basic principles and create programs to achieve goals for the benefit of all.**

<http://michael-ray-maynard.fuckeduphuman.net>

<http://bonnie-jean-filippin.fuckeduphuman.net>

HOW MANY MORE SHALL BE INDIVIDUALLY NAMED THIS WAY BECAUSE OF THIS HATE PARADIGM YOU HAVE INSTILLED AGAINST THE HIV/AIDS COMMUNITY [ And Our Greater Society As A Whole? ] --- Who is kidding Who? I know the truth.

It is time for us to change the direction of priorities, before too many more people fall victim to fear and retaliatory reports found on Glassdoor encapsulated and surrounding the social services agencies.

TIME FOR SOMETHING NEW!

Do you finally have your listening ears on or am I still going to die under your hate regime of

dysfunctional orders that causes a huge smashed up grab em up tie to the erosion of trust which then leads to mass gun shootings?

How can you not see the damage that has been done?

You are doctors afterall. You should know better when the time is best to let go of the reigns of hate and start something different ---- start to actually CAUSE and CONCERN to RELATE.

Thank you for reading....

If you care, I care to dare the system's elite!

If you don't care, well then you don't care to save the country from it's target trajectory of full and complete collapse. If that is your intention, then by design, you are an enemy of the state of country sustainable order...

What does that make you then? An enemy of peace.

What does it take to get the attention and receive someone to respond a response of responsibility onto a hate conspiracy that is showing highly affecting the standards of quality of care in the services and provider care under the authority of the Ryan White Care Act? As there is a systemic problem showing by researching nationally scope region to region Glassdoor negative outlook reviews for these social service agencies, I have some examples to place into this record -- an obvious condition of danger holding that no one is taking administrative concern, care, or response to my calling here to bring this forward into a corrective adaptive fix.

I am left to the status of #HIVUntreatable in my very last HIV provider care and I am reluctant to find another doctor under these conditions that does not upright these conditions so that these Doctor's under this observed policy effect not being administered from the top effects the client/patient of persons living with HIV/AIDS in the United States of America.

Random PSA Message  
Selector [ 1 - 11 ]

out --- flat tires ---- time to change the tires --- time to ride a different paradigm --- time to change the system by creation of new commitments as Pope Francis calls us to ---- or be damned --- I will die first trying to get the attention of American Public who are distracted to not see the truth happening ---- this is very very very very much real.

This being a few examples:

glassdoor  
Colorado Health Network

Your trust is our top concern, so companies can't alter or remove reviews.

Oct 29, 2018

"Stay Away"

Former Employee - Medical Case Manager in Colorado Springs, CO

Doesn't Recommend Negative Outlook CEO

I worked at Colorado Health Network full-time (More than 5 years)

Pros

This unfortunately is a area that there is nothing to promote as there are no Pros to this job.

Cons

EEOC violations, confidentiality compromises of the people they are supposed to protect, pay is below average and benefits are horrible. The CEO is below the bottom of the swamp in regards to leadership. <https://www.glassdoor.com/Reviews/Colorado-Health-Network-Reviews-E1718672.htm>

**GLASSDOCK**

**Decide That This Governor's Review Reflects A Foundational Mistake that the National Ryan White Care Act is Structured Under this "Business / Social Design" construct model.**

http://coloradohealthnetwork.fuckeduphuman.net

specific solution to the benefit of dysfunction and its facilitator when identified. Other people with poor skills are present to lead leadership and the crisis situation and a piece of functional highlighting leadership approaches to understand. Models are needed. In the past, few years most work has been based on general reflection, an abstract or generalist approach. CAP treated HIV as a second class citizen. Ignored the resources for change and effectiveness. If you go to CAP, even if you're not well, find it hard to work in the HIV community in Portland. The local HIV community is a mix of people from the staff and the others being served, and are understanding and understanding. You would think if 50% of the staff have a low health care, it might be a while before they start to be a high priority that can't be dismissed as "disgruntled" staff. Street Care is the only agency that for HIV related needs, they have a shop and facilities and an accountability when they begin to the community they are doing they serve.

**Advice to Management**

Stop all of the same process and any program through dysfunction. Advise you do not serve the community at large and close your doors. CAP is not always HIV response, it's about the individuals and being people working as the response for managing and interacting, that employees if you want to be a CEO. The health care is not for it, but do not proceed you are helping people with HIV, because you are not. You are only providing services and the health care. Also, an HIV health response on HIV growth with the law of HIV, leaders or people of color managing about services means you will be lost. The HIV

Nori Zaccheo — Do not go to her! In December I took a medicine prescribed by a different doctor that I was allergic to. It gave me a fever, hives, and made me vomit. Dr. Arias prescribed it to me again in March. I said no I'm not taking it I'm allergic it needs to be in the computer that I'm allergic. She insisted that I wasn't allergic and told me to take it. Because she is a doctor, I trusted her and took it. I knew I shouldn't have listened to her, but I thought she'd know better than I. I was wrong. I had a fever for a week straight, nonstop vomiting, hives all over my body. Thanks Dr. Arias for making me so sick and not listening to me when I said I was allergic the first time. I am a college student who gets 1 week off per semester to relax and catch up on school work (for spring break), and it was spent in a bed with a fever and

**What is a NPI Number?** : The National Provider Identifier (NPI) is a unique identification number for covered health care providers. The NPI is a 10-position, intelligence-free numeric identifier (10-digit number). This means that the numbers do not carry other information about healthcare providers, such as the state in

which they live or their medical specialty. The NPI must be used in lieu of legacy provider identifiers in the HIPAA standards transactions. Covered health care providers and all health plans and health care clearinghouses must use the NPIs in the administrative and financial transactions adopted under HIPAA (Health Insurance Portability and Accountability Act).

**Where NPI should be used?** : The NPI must be used in place of legacy provider identifiers, such as a Unique Provider Identification Number (UPIN), Online Survey Certification & Reporting (OSCAR) and National Supplier Clearinghouse (NSC) in HIPAA standard transactions. There are two categories of health care providers for NPI enumeration purposes. Entity Type 1 providers are individual providers who render health care (e.g., physicians, dentists, nurses). Sole proprietors and sole proprietorships are Entity Type 1 (Individual) providers. Organization health care providers (e.g., hospitals, home health agencies, ambulance companies) are considered Entity Type 2 (Organization) providers.

**Who must obtain NPI?** : All health care providers who are HIPAA-covered entities, whether they are individuals (e.g., physicians, nurses, dentists, chiropractors, physical therapists, or pharmacists) or organizations (e.g., hospitals, home health agencies, clinics, nursing homes, residential treatment centers, laboratories, ambulance companies, group practices, Health Maintenance Organizations [HMOs], suppliers of durable medical equipment, pharmacies) must obtain an NPI. The NPI will be used by HIPAA-covered entities (e.g., health plans, health care clearinghouses, and certain health care providers) to identify health care providers in HIPAA standard transactions. A covered health care provider, under HIPAA, is any health care provider who transmits health information in electronic form in connection with a transaction for which the Secretary of Health and Human Services has adopted a standard, even if the health care provider uses a business associate to do so.
